Repeat * ** mou hitoribotchi ja nai Anata ga iru kara... Repeat * Repeat **	Right now, I can hear your voice Saying "Come here to me" Just when loneliness takes over me Right now, I can see your figure Walking to me While I close my eyes I know my heart was clouded with tears Until yesterday, but now..... * Do you remember when our eyes met? Do you remember when our hands touched? It was my first departure for love I love you, so Right now, I can feel your gaze Even though we're separated I feel like my body gets warmed Right now, I'll believe your love Just watch over me from far away I know the world was clouded with tears Until yesterday, but now..... * repeat I'm not alone anymore For you are here * repeat I'm not alone anymore * * repeat
